

# TERMINATE PROTEGO

HELP SAVE THE EARTH

Do you know what is hiding  
beneath your flooring & wall ?

**IMPARTING SUSTAINABILITY INTO YOUR PRODUCT**

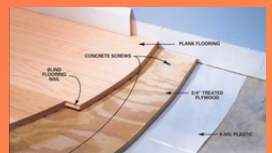

Take eco-friendly measures today

REDUCE CARBON FOOTPRINT

## Wood Flooring & Carpet Outlay

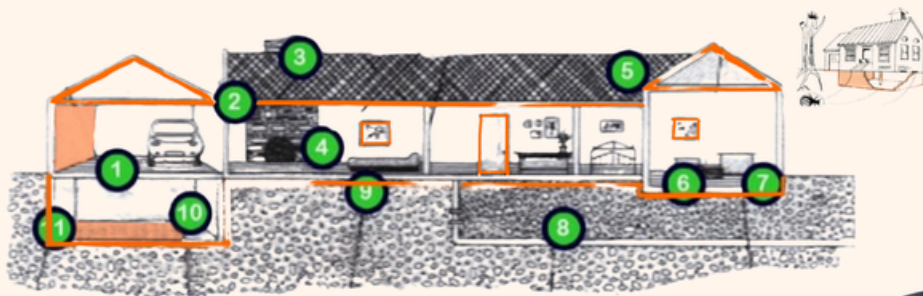

1. Anti Termite, Ants, etc..
2. ASTM E96 moisture certified
3. Sustainable and Ecological
4. Moisture and Sound Barrier
5. Low carbon footprint
6. Long term efficacy
7. Zero Maintenance
8. Well Certified

## Eco Anti-Pests & Moisture Barrier

### The Smarter Way to Protect and Preserve

#### ✓ Eco-Disruptive

- No chemicals. No soil poisoning. Just long-lasting physical protection.

#### ✓ DIY-Ready & Fast Install

- Modular design makes it installer-friendly with minimal training.

#### ✓ Low Human Error

- Simplified process ensures consistent results and better quality control.

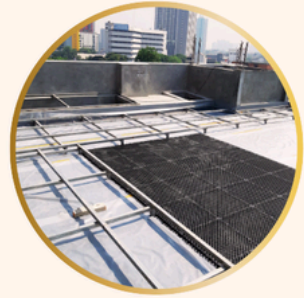

#### ✓ Safe for Installers

- Zero exposure to toxic chemicals or dangerous procedures.

#### ✓ High QC, Long Lifespan

- Factory-controlled components + minimal site variability = strong reliability.

## Building Better with ESG & Climate in Mind

### ESG & Scope 3 Carbon Pressure

- Developers – especially listed and green-mark certified firms – face increasing scrutiny over embodied emissions and lifecycle sustainability.
- Terminate Protego eliminates chemical usage, reduces material wastage, and supports ESG and net-zero targets.

	Chemical Spray	Terminate Protego
CO2 Impact	High	Low
Scope 3 saving		
Worker's Safety		
Installation	Long time & Difficult	fast & Easy
Quality Control	Difficult , No visual	Easy with Visual

- 1 sqm Terminate Protego replaces 5 litres pesticides = 25 kg CO2e avoided

### Make your Project Climate-Positive

By choosing Terminate Protego, you

- Eliminate recurring chemical treatments
- Cut lifecycle CO2 emissions
- Reinforce your ESG disclosure and GRESB score
- Support sustainable, healthy construction
- Let's build smarter, cleaner, safer
