

TERMINATE PROTEGO WALL PROTECTION SOLUTION

2 in 1 Anti Termite & Moisture Barrier
for Internal & External Wall Applications

-  **ANTI TERMITE**
Physical Barrier
No Chemical Spray
-  **MOISTURE BARRIER**
Stops Rising Damp
& Wall Seepage
-  **FLOOD BARRIER**
Helps Block Water
Seepage at Joints
-  **LOW CARBON**
Sustainable &
Recyclable
-  **SAFE TO USE**
Harmless to Workers
& Occupants

1 INTERNAL WALL APPLICATION

Function:

- Blocks termites from penetrating internal walls.
- Prevents moisture and rising damp from ground and adjoining walls.

2 EXTERNAL PERIMETER WALL APPLICATION

Function:

- Applied to the outer face of perimeter walls from ground level extending at least 0.5m upwards.
- Extends into the ground outwards seamless without joints for complete protection.
- Protects against termites, ground moisture and flood water seepage.

Acts as a flood water barrier at wall and ground joints.

DUAL PROTECTION. LASTING PERFORMANCE.

- ✓ Physically blocks subterranean termites – no soil spraying required
- ✓ Prevents moisture ingress, rising damp & efflorescence
- ✓ Helps block flood water seepage at wall & ground joints
- ✓ Durable, puncture resistant and easy to install
- ✓ Recyclable material with low carbon footprint
- ✓ Long service life – built to last the life of the building
